

Environmental Technician

The Cariboo Gold Project, through its wholly-owned subsidiary, Barkerville Gold Mines Ltd., is **Osisko Development Corp.'s** ("**Osisko Development**" or the "**Company**") flagship Project is currently seeking a highly motivated individual to be part of the Environmental Team as an Environmental Technician for the Cariboo Gold Project in Wells B.C. This position's work will primarily be at the project in Wells BC, but will also require travel to the QR Mill located on the 500 Rd. This will be a camp position, 14 days in, 14 days out.

Reporting to the Environmental Superintendent, the Environmental Technician carries out sampling and post-field documentation of groundwater, meteorology, vegetation, dust fall, ML/ARD (Metal Leaching / Acid Rock Drainage), and other disciplines.

The Environmental Technician also undertakes routine inspections of construction, and site activities to document compliance with permits and Standard Operating Procedures, as well as identifies and implements environmental protection/mitigation and sediment and erosion control prescriptions. The Technician will prepare reports, QA/QC analysis, undertake data entry, and demonstrate high-quality workmanship.

Main Responsibilities

- Sample, prepare, and ship – groundwater and effluent
- Receiving environment surface drinking water samples, etc. in accordance with the field sampling manual
- Ability to follow SOPs with a departmental consistency, enabling good QA/QC
- Installation and maintenance of sediment and erosion control measures
- Operate hydrology and weather station and record data
- Inspect, install, and ensure proper operation of water management structures
- Record data and activities in a logbook and excel while being able to assess and report noncompliance and trigger levels
- Complete flow measurements at surface water sites and maintain the calibration requirements
- Assist in various environmental projects as required such as wildlife monitoring, aquatics effects monitoring, and hydrotechnical surveys

Qualifications

- College or University degree in an environmentally related discipline
- 1-3 years' experience of environmental sampling, fieldwork, data management, reporting, QA/QC in a bush environment
- Knowledge of federal and BC laws/regulations for the exploration/mining industry
- Environmental sampling experience in the mining industry in British Columbia is an asset
- Microsoft Office experience: Word, Excel, PowerPoint, Publisher

- Highly competent with Microsoft Office, and data management software (e.g. EQWIN); other software experience will be considered an asset (e.g. GIS, R-code, SysStat, etc)
- Experience with: ArcGIS and/or spatial analysis experience
- Level 1 First Aid and Transportation Endorsement
- Ideal candidate will have field sampling/data management experience from some of the following disciplines: construction monitoring, hydrology, meteorology, vegetation, dust fall, ML/ARD, wildlife, aquatic biology, land reclamation, contaminated sites, erosion/sediment management, hazardous waste, spill cleanup/reporting, drainage control
- Physically fit and able to carry out physical activities, including lifting heavy objects, long days hiking, loading/packing gear, and installing sediment/erosion structures
- Team-oriented but driven to produce personal results
- Able to thrive in a dynamic work environment that requires frequent adjustments to planned activities and approaches to get the work done
- Excellent planning, problem-solving, and coordination skills and a fast learner
- Well-developed written and verbal communication skills
- The work is split approximately between office (40%) and outdoors (60%), depending on seasonal sampling requirements. Outdoor work includes working year-round in extreme weather, around heavy equipment, on uneven ground, water, boats, around wild animals, and on snowmobiles and ATVs

Benefits

- Paid time off
- Extended Health, Dental, Vision Care
- Disability Insurance
- Life Insurance
- Employee Share Purchase Plan

This is an exciting opportunity to join a Company that intends to make its mark in the mining industry.

The estimated base annual salary range for this position is \$66,000 to \$75,000. The salary offered will be commensurate with relevant skills, knowledge, and experience.

Send your resume and cover letter to jobs@osiskodev.com. The candidates under consideration will be contacted directly.
