Additional Information

Each FT Share is intended to qualify as a "flow-through share" (within the meaning of subsection 66(15) of the *Income Tax Act* (Canada) (the "**Tax Act**"). Unless otherwise indicated, all references to "\$" or "dollars" is to Canadian dollars.

The FT Shares and the HD Shares offered under the LIFE Offering will be offered and sold to purchasers by way of private placement on a "bought deal" basis in each of the provinces and territories of Canada pursuant to the "listed issuer financing exemption" from the prospectus requirement available under Part 5A of National Instrument 45-106 – *Prospectus Exemptions* ("**NI 45-106**"), as amended by Coordinated Blanket Order 45-935 – *Exemptions from Certain Conditions of the Listed Issuer Financing Exemption* (as amended, the "**LIFE Exemption**"). The HD Shares under the Concurrent Private Placement will be offered and sold to purchasers by way of private placement on a "bought deal" basis (i) in each of the provinces and territories of Canada pursuant to exemptions available under NI 45-106, other than the LIFE Exemption, (ii) the United States to "qualified institutional buyers" pursuant to available exemptions from the registration requirements of the U.S. Securities Act and applicable state securities laws, and (iii) such other jurisdictions provided it is understood that no prospectus filing or comparable obligation, ongoing reporting requirement or requisite regulatory or governmental approval arises in such other jurisdictions. The Offering will be completed pursuant to an underwriting agreement to be entered into among the Corporation and National Bank Financial Inc., BMO Nesbitt Burns Inc. and RBC Dominion Securities Inc., as co-lead underwriters and co-bookrunners, and a syndicate of additional underwriters that may be formed (collectively, the "**Underwriters**") on or before the Closing Date (as defined herein). The Underwriters will endeavor to arrange for substituted purchasers ("**Substituted Purchasers**") of the FT Shares and HD Shares with the effect that such Substituted Purchasers will be the initial purchasers of the FT Shares and HD Shares. To the extent that Substituted Purchasers purchase any FT Shares and HD Shares, the Underwriters shall not be obligated to purchase the FT Shares and HD Shares so purchased by such Substituted Purchasers.

The Corporation understands that purchasers of FT Shares may subsequently: (i) donate some or all of such FT Shares to registered charities as part of a charitable donation arrangement promoted by a third party, who may sell such FT Shares to purchasers arranged by the Underwriters, and/or (ii) sell some or all of such

	FT Shares to purchasers arranged by the Underwriters, in each case following closing of the Offering (such FT Shares described in (i) and (ii), collectively, the "Re-Offer Shares") (each a "Follow-On Transaction"). Sales of Re-Offer Shares may be made to purchasers located in: (i) each of the provinces and territories of Canada pursuant to the LIFE Exemption, (ii) the United States to "qualified institutional buyers" pursuant to available exemptions from the registration requirements of the U.S. Securities Act and applicable state securities laws, and (iii) such other jurisdictions provided it is understood that no prospectus filing or comparable obligation, ongoing reporting requirement or requisite regulatory or governmental approval arises in such other jurisdictions. The Corporation will have no involvement or participation in any Follow-On Transaction, other than to register any transfer of securities required as a result.
Offering Price:	\$6.69 per National FT Share. \$6.93 per BC FT Share. \$4.78 per HD Share.
Use of Proceeds and Flow-Through Tax Considerations:	<u><i>Flow-Through Shares</i></u> The Corporation intends to use an amount equal to the gross proceeds from the sale of the FT Shares under the LIFE Offering to incur eligible "Canadian exploration expenses" (as defined in the Tax Act) that (i) qualify as "flow-through mining expenditures" as defined in the Tax Act, and any proposed amendments thereto announced publicly by or on behalf of the Minister of Finance (Canada) on or prior to the Closing Date and, for greater certainty including the announcement on March 3, 2025 by the Honourable Jonathan Wilkinson, Minister of Energy and Natural Resources, that the federal government proposes to extend the mineral exploration tax credit under the Tax Act, and (ii) in respect of the BC FT Shares purchased by eligible British Columbia purchasers, will also qualify as "BC flow-through mining expenditures" that meet the criteria set forth in subsection 4.721(1) of the <i>Income Tax Act</i> (British Columbia), in respect of the exploration activities on the Corporation's (or its subsidiary's) properties in British Columbia (the "Qualifying Expenditures"). The Qualifying Expenditures will be incurred on or before December 31, 2026, and will be renounced by the Corporation to the initial purchasers of the FT Shares with an effective date no later than December 31, 2025, in an aggregate amount not less than the gross proceeds raised from the issue of the FT Shares. For greater certainty, the risk of whether an extension of the mineral exploration tax credit will be enacted by the government is borne solely by the Corporation. If the Corporation fails or is unable to renounce the Qualifying Expenditures in an amount equal to the gross proceeds from the issuance of the FT Shares with an effective date of no later than December 31, 2025, and/or the amount is reduced pursuant to subsection 66(12.73) of the Tax Act or any similar provincial tax law, the Corporation agrees, to the extent permitted by the Tax Act, to indemnify the subscribers for all additional taxes payable by subscribers as a consequence of such failure or reduction (other than if such failure or reduction is as a result of a Follow-On Transaction that causes the FT Shares to be "prescribed shares" within the meaning of section 6202.1 of the regulations to the Tax Act).

	<u>HD Shares</u> The Corporation intends to use the net proceeds of the HD Shares issued under the LIFE Offering and the Concurrent Private Placement to contribute to the capital required for construction activities at the Corporation's Cariboo Gold Project and related pre-construction activities.
Closing Date:	The LIFE Offering and the Concurrent Private Placement are expected to close on or about October 29, 2025, or such other date as the Corporation and the Underwriters may agree (the " Closing Date ").
Exchange:	The Common Shares of the Corporation are traded in Canada on the TSX Venture Exchange (" TSXV "), and in the United States on the New York Stock Exchange (" NYSE "), in each case listed under the symbol " ODV ".
Last Closing Price:	The last closing price of the Common Shares as at October 8, 2025 was as follows: TSXV: \$5.23; NYSE: US\$3.76.

SUMMARY DESCRIPTION OF BUSINESS

What is our business?

The Corporation is a North American gold development company focused on high-quality past-producing properties located in mining friendly jurisdictions with district scale potential. The Corporation's objective is to become a Continental North American intermediate producer of precious metals, through curating and advancing a portfolio of development projects and investments with potential for value creation. Its flagship mining asset is the Cariboo Gold Project, located in the District of Wells, British Columbia, Canada, which the Corporation considers to be its only material property for purposes of NI 43-101. The Corporation's project pipeline is complemented by the Tintic Project, located in Utah, United States.

Cariboo Gold Project

The Cariboo Gold Project is a permitted and advanced stage gold exploration project 100%-owned by the Corporation (through its 100% owned subsidiary Barkerville Gold Mines Ltd.) located in the historic Wells-Barkerville mining camp, in the District of Wells, central British Columbia, Canada, that extends for approximately 77 kilometres from northwest to southeast. The Corporation's total land package consists of 443 mineral and placer titles which cover an area of approximately 186,740 hectares.

Further information regarding the business and operations of the Corporation, the Cariboo Gold Project and the other projects of the Corporation, can be found in the Corporation's reports and filings available under the Corporation's SEDAR+ profile at www.sedarplus.ca.

Note:

- (1) The estimated costs described in the table above include expenditures related to exploration drilling and work programs at the Cariboo Gold Project through to December 31, 2026, including Proserpine (20,000 metres), Cunningham Creek (10,000 metres), Barkerville Mountain/Williams Creek (10,000 metres), Cariboo Hudson (10,000 metres), Yanks Peak (10,000 metres) and Burns Creek (10,000 metres).
- (2) Includes key milestones in respect of the Cariboo Gold Project for the next 12 months and costs of the work program from the Cariboo Technical Report comprising (i) exploration activities, (ii) mine design & geotechnical, (iii) mineral processing and metallurgy, (iv) water balance and water quality, (v) surface infrastructure, (vi) permitting change assessment, (vii) contingency, (viii) additional support work relating to the Cariboo Gold Project, and (ix) certain fixed costs (which includes general and baseline fixed costs that will be incurred to explore and continue developing the Cariboo Gold Project, regardless of the speed at which the Cariboo Gold Project is being developed, including fixed reclamation costs).

The above noted allocation represents the Corporation's current intentions with respect to its use of proceeds and other available funds based on current knowledge, planning and expectations of management of the Corporation. Although the Corporation intends to expend the proceeds from the Offering and other available funds as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Corporation's ability to execute on its business plan and sustain its operations for not less than 12 months from the Closing Date of the Offering. See *"Cautionary Statement Regarding Forward Looking Information"* above. The Corporation has generated negative cash flows from operating activities since inception and anticipates that it will continue to have negative operating cash flow beyond the 12 months after the Closing Date of the Offering. As a result, certain of the other available funds will be used to fund such negative cash flow from operating activities in future periods.

The most recent audited annual financial statements and interim financial statements of the Corporation included a going concern note. The Corporation is still in the exploration and development stage and has not yet generated positive cash flows from its operating activities, which may cast doubt on the Corporation's ability to continue as a going concern. The Offering is intended to permit the Corporation to continue to explore its properties and is not expected to affect the decision to include a going concern note

in the next annual financial statements of the Corporation.

How have we used the other funds we have raised in the past 12 months?

In the 12 months prior to the date of this Offering Document, the Corporation raised aggregate gross proceeds of approximately US\$203 million pursuant to the August 2025 Offering, US\$57.5 million pursuant to the November 2024 Offering, and US\$34.5 million pursuant to the October 2024 Offering (see "*Summary Description of Business – Recent Developments*" above).
