

OSISKO DEVELOPMENT ANNOUNCES PROPOSED OFFERING OF US\$275.0 MILLION AGGREGATE PRINCIPAL AMOUNT OF CONVERTIBLE SENIOR NOTES

- ▶ **Opportunistic capital raise with net proceeds expected to be used for the development of the Cariboo Gold Project and general corporate purposes**
- ▶ **A portion of net proceeds expected to be used to purchase cash-settled capped calls to offset potential economic dilution by effectively increasing the conversion premium**

Montreal, Québec, May 20, 2026 – Osisko Development Corp. (NYSE: ODV, TSXV: ODV) ("**Osisko Development**" or the "**Company**") announces its intention to offer convertible senior notes due 2031 (the "**Notes**") in an aggregate principal amount of US\$225.0 million in a private placement (the "**Offering**") to persons reasonably believed to be qualified institutional buyers pursuant to Rule 144A under U.S. Securities Act of 1933, as amended (the "**Securities Act**").

The Company intends to grant the initial purchasers of the Notes an option to purchase, during a 13-day period beginning on, and including, the date on which the Notes are first issued, up to an additional US\$25.0 million aggregate principal amount of Notes. The Offering is subject to market and other conditions, and there can be no assurance as to whether or when the Offering may be completed, or as to the actual size or final terms of the Offering.

Double Zero Capital, LP, an affiliate of the Company (the "**Affiliated Investor**"), has indicated an interest in purchasing up to US\$50.0 million aggregate principal amount of Notes in a separate concurrent private placement under Section 4(a)(2) of the Securities Act (the Notes purchased by the Affiliated Investor, the "**Affiliate Notes**"). The Affiliate Notes are expected to be sold at the same price, and constitute part of the same series, as the Notes. The Affiliated Investor is under no obligation to purchase any of the Affiliate Notes offered and its interest in purchasing such Affiliate Notes is not a commitment to do so.

Transaction Highlights:

- US\$275.0 million offering of convertible senior notes due 2031 (including any Affiliate Notes).
- If converted, holders of the Notes would receive cash, Common Shares (as defined herein) or a combination of cash and Common Shares, at the Company's election.
- Cash-settled capped call transactions to be purchased in conjunction with the Notes to offset potential economic dilution by effectively increasing the conversion premium.
- Net proceeds intended for the development of the Cariboo Gold Project and general corporate purposes, in addition to the cost of the capped call transactions.

Convertible Senior Notes

The Notes will be general senior unsecured obligations of the Company and will accrue interest payable semi-annually in arrears. The Notes will be convertible at the option of holders under certain conditions into cash, common shares, no par value, of the Company ("**Common Shares**") or a combination of cash and Common Shares, at the Company's election. The interest rate, initial conversion rate and other terms of the Notes shall be determined at the time of pricing of the Offering.

Use of Proceeds

The Company expects to use the net proceeds from the Offering and the sale of the Affiliate Notes (i) to pay the cost of the capped call transactions (as described herein) with certain financial institutions (the "**Option Counterparties**"), (ii) for development of the Cariboo Gold Project, and (iii) for general

corporate purposes. If the initial purchasers exercise their option to purchase additional Notes, the Company expects to use a portion of the net proceeds from the sale of the additional Notes to enter into additional capped call transactions with the Option Counterparties and the remaining net proceeds for the purposes described above.

Capped Call Transactions

In connection with the pricing of the Notes, the Company expects to enter into privately negotiated cash-settled capped call transactions with the Option Counterparties. The capped call transactions will cover, subject to anti-dilution adjustments substantially similar to those applicable to the Notes, the number of Common Shares initially underlying the Notes (including any Affiliate Notes). The capped call transactions are expected generally to compensate (through the payment of cash to the Company) for the potential economic dilution upon any conversion of Notes and/or offset any cash payments the Company is required to make in excess of the principal amount of converted Notes, as the case may be, with such reduction and/or offset subject to a cap.

In connection with establishing their initial hedges of the capped call transactions, the Company expects that the Option Counterparties or their respective affiliates will enter into various derivative transactions with respect to the Common Shares and/or purchase Common Shares concurrently with or shortly after the pricing of the Notes, including with, or from, certain investors in the Notes. This activity could increase (or reduce the size of any decrease in) the market price of the Common Shares or the trading price of the Notes at that time.

In addition, the Option Counterparties or their respective affiliates may modify their hedge positions by entering into or unwinding various derivatives with respect to the Common Shares and/or purchasing or selling Common Shares or other securities of the Company in secondary market transactions following the pricing of the Notes and prior to the maturity of the Notes (and are likely to do so during the 60-trading day period beginning on the 61st scheduled trading day prior to the maturity date of the Notes and, to the extent the Company exercises the relevant election under the capped call transactions, following any earlier conversion, redemption or repurchase of the Notes). This activity could also cause or avoid an increase or a decrease in the market price of the Common Shares or the Notes, which could affect a holder's ability to convert the Notes and, to the extent the activity occurs during any observation period related to a conversion of Notes, it could affect the number of Common Shares, if any, and the value of the consideration that a holder will receive upon conversion of its Notes.

The Notes (including any Affiliate Notes) and the Common Shares issuable upon conversion of the Notes, if any, have not been registered under the Securities Act, any state securities laws or the securities laws of any other jurisdiction, and unless so registered, may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and other applicable securities laws. Offers and sales in Canada will be made only pursuant to exemptions from the prospectus requirements of applicable Canadian provincial and territorial securities laws. The Notes issued and the Common Shares issuable upon the conversion of Notes (including any Affiliate Notes), if any, to purchasers in Canada will be subject to a statutory hold period in accordance with applicable Canadian provincial and territorial securities laws. The Offering is subject to final acceptance of the TSX Venture Exchange.

This press release is neither an offer to sell nor a solicitation of an offer to buy any of the securities being offered in the Offering, nor shall it constitute an offer, solicitation or sale of any securities in any state or jurisdiction in which such an offer, solicitation or sale would be unlawful prior to the registration or qualification thereof under the securities laws of any such state or jurisdiction.

ABOUT OSISKO DEVELOPMENT CORP.

Osisko Development Corp. is a continental North American gold development company focused on past producing mining camps. The Company's objective is to become an intermediate gold producer through the development of its flagship, fully permitted, 100%-owned Cariboo Gold Project, located in central British Columbia, Canada. Its project pipeline includes the Tintic Project located in the historic East Tintic mining district in Utah, U.S.A., a brownfield property. Osisko Development is focused on developing long-life mining assets in mining-friendly jurisdictions while maintaining a disciplined approach to capital allocation, development risk management, and mineral inventory growth.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This news release contains "forward-looking information" (within the meaning of applicable Canadian securities laws) and "forward-looking statements" (within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, as amended) (collectively, "forward-looking statements"), including the proposed terms of the Notes; the sale of the Affiliate Notes; the capped call transactions; the completion, timing and size of the proposed Offering, sale of the Affiliate Notes and capped call transactions; the potential impact of the foregoing or related transactions on dilution to the Common Shares and the market price of the Common Shares or the trading price of the Notes; the grant to the initial purchasers in the Offering of the option to purchase additional Notes; and the anticipated use of proceeds from the Offering. Such forward-looking statements are identified with words such as "may", "will", "would", "could", "anticipate", "believe", "expect", "plan", "intend", "potential", "estimate", "propose", "project", "outlook", "foresee", "objective", "strategy", variants of these words or the negative or comparable terminology, as well as terms usually used in the future and the conditional. Information contained in forward-looking statements is based upon certain material assumptions that were applied in drawing a conclusion or making a forecast or projection, including the assumptions, qualifications, limitations or statements pertaining to: the ability to develop the Cariboo Gold Project and its status as being fully permitted; and the exploration potential and prospectivity (if any) of its properties. Such forward-looking statements are based on a number of risks, uncertainties and assumptions which may cause actual results or other expectations to differ materially from those anticipated and which may prove to be incorrect. These assumptions include, but are not limited to: the absence of further work stoppages or suspensions at the Cariboo Gold Project; favourable regulatory conditions and approvals; the ability to maintain adequate personnel and contractor levels; the absence of unforeseen ground conditions or other geological challenges; the availability of necessary equipment, supplies and infrastructure; and general economic and market conditions. Actual results could differ materially due to a number of factors, including, without limitation: risks related to the exploration, development and operation of the Cariboo Gold Project; health, safety and security incidents; regulatory delays or changes in regulatory framework and applicable laws; labour shortages or disputes; general economic and market conditions and business conditions in the mining industry; fluctuations in commodity and currency exchange rates; changes in regulatory framework and applicable laws, as well as those risks and factors disclosed in the Company's most recent annual information form, financial statements and management's discussion and analysis as well as other public filings on SEDAR+ (www.sedarplus.ca) and on EDGAR (www.sec.gov). Although the Company believes the expectations conveyed by the forward-looking statements are reasonable based on information available as of the date hereof, no assurances can be given as to future results, levels of activity and achievements. The Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise, except as required by law. Forward-looking statements are not guarantees of performance and there can be no assurance that these forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this news release. No stock exchange, securities commission or other regulatory authority has approved or disapproved the information contained herein.
